MEMPHIS APPEAL. SATURDAY, : : MAY 29, 1886.

BLAINE has buried the bloody shirt, and so has put it away forever. He will work the labor racket in 1888 and to that end has become a Knight of THE Pickens county Democratshave

presented L M. Stone of that county to the convention of the Sixth Congressional District of Alabama for its nomination.

THE House of Representatives of Louisiana has passed a bill by a vote of 85 to 2 to abolish the law by which Judges are appointed by the Governor of that State. The people want an elective judiciary.

THE Aberdeen Examiner states that Yazoo county has instructed for Col. Gibbs for Congress, and Meridian is for Capt. Fewell, and doubtless every candidate will be for the renomination of Singleton in preference to any other man but himself.

THE Executive Committee of the Third Congressional District of Mississippi is called to meet in Greenville on Monday, June 14th, to provide for a convention that will, all Democrats up this way hope, nominate Gen. Catchings for re-election.

Tue Vicksburg Herald says that if it felt disposed to meddle in the affairs | health and life. of the Jackson District, it feels confident it could and somewhat to the difficulties already numerous enough, that Mr. Barksdale will have to overcome, Gen. Charles Hooker is Mr. B's. opponent.

THE Samuel J. Randall Association at Philadelphia at a special meeting on Monday evening determined to change the name of that club to "The Eleventh Ward Association," on the expressed ground that Mr. Randall "has made a treacherous alliance with the Republicans" to, defeat a reform of the tariff.

THE Jackson Tribunc-and-Sun, like the APPEAL, is opposed to changing the day for holding the Democratic convention-the 11th of August-to an earlier date. "The people are satisfied with the present date, at least they acquiesced without a murmer of objection. Who is it that is clamoring for the change?"

Os the second page we publish a great deal of interesting matter concorning the progress that earnest women are making in ways that prove the capacity of the sex for absolute freedom as the laws guarantee it to men. And this matter will perhaps interest men most, as showing plainly what is inevitable and what has too long been withheld-the liberty of woman.

WE agree with the Gallatin Eraminer, treating of real estate taxation, that "All over Tennessee there is a necessity for reform; the whole system should be overthrown and cut up, root and branch. There is but one effectual way to have reform, and that is for the State to establish a separate bureau, charged with the assessment of property a'l over the State, with power to appoint its own agents."

THE General Assembly of the Southern Presbyterian Church has resolved and declared that "Adam's body was directly fashioned by Almighty God without any natural animal parentage of any kind, out of matter previously created from nothing" That settles the question of evolution no matter how presented, whether diluted by Prof. Woodrow or not, so far as the Presbyterians of the Fouth are concerned.

THE Clarksville Chronicle is right. There never was just such a lack of reason in support or opposition to any measure as is shown by the opponents of the Blair bill. The Federal government turned loose on the South a mass of illit rate voters just freed from elavery, and thus increased the educational burden of this section, which en itle; the South to national aid in relieving this illiteracy. An objection to the Blair bill is based simply on objection to public education of any kind. It comes from men who think the begefits of education should the ear fined to the few.

The New York Herold on Saturday Just published a very sensational in- alle : fleet, torview with Mr. Blaine on the fishery
question. On Torollay night an susale of seats is very large,

thoritative statement was sent out by As ociated Press from Bar Harbor, that "Mr. Hlaine says he has had no interview with any one in regard to the fishery question." The Herald declines to accept this as truthful, offers to "prove to the satisfaction of the public the genuineners and accuracy' of its correspondent's report, and sug gests that possibly the author of the denial may be quibbling about the word "interview." There is a lie out

Tax funeral of the late Gen. Ogden, at New Orleans Thursday, was impressive in every sense, and "nothing," says the Picagane, "could have been more sincere than the depth of feeling which prevailed in that congregation assembled to do honor to one of Louisiana's noble sons. It was a beautiful and fitting tribute. The dead have seldom so strong a hold upon the living who come to do honor to the remains. The brave, proud, patriotic cit zen who served Louisiana in her day of need will always be honored, and honored most by these who knew him best, and he will live in the nearts of his countrymen."

Geranmo and his band, since he escaped from Lient. Maus's camp, about two months ago, has murdered, it is estimated, fally seventy-five or eighty settlers, and has succeeded on one or two occasions in thrashing the soldiers sent to capture him. The campaign of Gen. Crook, which was a failure, has been taken up by Gen. Miles, with no bet'er results, and the country at large is rapidly beginning to realize that the troops are stupidly bandled or they are unable to cope with the warlike Apaches. The people will, as the APPEAL long ago suggested, have to protect themselves. The Texas Rangers secured the permanent peace of that State.

A MEETING of influential proper'y owners held in New York on Tuesday unanimously passed a series of resolutions earnestly protesting against the cons'ruction of the proposed arcade road under Broadway, as disastrous to property, declaring that the sets authorizing it are unconstitutional, and providing that a committee of fifteen be appointed to resist the project by all lawful means. This is right and sensible. Underground construction of any kind, on sanitary grounds should not be permitted, save when it is absolutely necessary to tunnel rivers or mountains. Even cellars in cities should be abolished as the breedingplaces of foul gases destructive to

PRESIDENT CLEVELAND has by several vetoes recently made it plain that he is watching the pension legislation, and does not mean that it shall become law with his sanction. As the New York Evening Postsays, "His messages bring out very forcibly the injustice and recklessness of the policy by which the decisions of the Pension Bureau denying pensions are over-ruled in Congress. Such messages (97), Covington. Non-starter, Clay Pate. make Senators and Representatives indignant, because they tell the plain truth about their unjustifiable methods of legislation, but the Congressmen will look in vain to the public for sympathy. The evidence thus afforded that Mr. Cleveland is looking sharply after the course of affairs at the Capitol, will reassure the people, who have become alarmed at the nonchalance with which their representatives are voting away their money."

M. RECERPORT is a red-hot dramatist as well as a red-hot politician. His last play, The Irish Girl, which is to be produced in New York next fall, is based upon the Fenian invasion of Canada in 1868, and the heroine, as the New York Berald's Paris correspordent tells us-"Susannah Campbell"-is a ward of Lord Hastings, the Governor-General of Canada. The hero is "Richard Sweeny," a fine, dashing character, with all the glorious virtues and some of the dazzling vices of a young Irish gentleman of the old school. The scene is laid in Quebec. There are battles and riots, moonlight rides. love-making, treachery and female dagger-thrusts. The fourth act ends with a terribly realistic scene, where the heroine and the hero are placed against the wall-like the Parisian communards in 1871-and are shot by a platoon of British soldiers. Which is very realistic in France but not at all English, you know.

THE MIKADO.

Another Ovation Given the Ama teurs at the Memphis Theater.

Not a reat was unoccupied at the Memphis Theater last evening when the Mikado was repeated by the Ama-Athletic Association and its friends. The audience was more than balf ladies, the cream of local society, and they were nearly all in pure white. The waving of plumes and the flutter of fans made the scene in the and torium a gay one. The stage was brill ant, the chorus in excellent spirits and those who took the leading parts felt much surer of themselves than on the opening night. The consequence was that the opera was much more effectively given and in-

every way more estifactory.

Mrs. Carnes made a charming "Yum-Yum," singing that difficult part with a reat deal of spirit and investing it with all the native grace, charm and verve of which she is possessed. She is peculiarly fitted for the role which the pest professionals have not thought beneath them.

THE RIVER BRIDGE.

THE COST TO BE ABOUT THREE MILLIONS.

The General Change of Gauge Which Is to He Made To-Morrow.

"Unofficially, what do you think the prospect is for a bridge at this point?" asked an APPRAL man last night of Superintendent Sullivan of the Kansas C ty, Spingfield and Memphis rail-

"Officially and unofficially, publicly and privately, my answer is that the prospect is good. To put it plainly, there is no doubt about it. The bridge will be built, and the Kanses City. Change of Gauge. The grandest movement in a rai'road way which has ever transpired in the South, the change to standard gauge, beg ns to-day. All roads leading into Memphis, except the Louisville, New Orleans and Texas and the Chesa peaks, Onto and Southwestern, will change. The Memphis and Little Rock will perform that difficult operation to day. The Louisville and Nashville begins at 1:30 to morrow morning, all preliminary preparations having teen made so that four men to the mile can move the rails. The Memphis and Charleston will make the change Sunday and Monday, when all regular freight trains will be abandened. Cars must be on side tracks at Memphis or Huntsville at or before

3 a m. Monday. The following will be the organiza tion of the men on the basis of e ght miles to a section, but this may be varied by special instructions if the section is lenger or shorter. Twentysix men must be provided for an sight-mile section, dis ributed as follows:

Six men with claw bars to draw inside spikes; one man with spike maul to drive down stubs; five men for throwing the rail; three men, inside spikers; eight men, outside spikers; three extra men for shoving car, carrying water, etc., making twenty-six men besides the foreman.

A construction train will be started as soon as the work of changing gauge commences at Huntsville, and go at t to Stevensor, following up the force changing gauge. A construction train will also etart from Tuscumbia and go east to Huntsville, bllowing up the changing force. Another construction train will start west at Tuscumbia as soon as the work of changing com-mences, and will follow up the changing force until it meets the construction train which will start from Memphis and go east, following up the

force changing gauge
The gauge of the Lou sville and
Nashville radroad for a distance of 811 mi es, and the gauge of other South-ern reads will be changed Sunday next to the standard gauge of four feet eight and one-half inches. Four men be employed to the mile, at which rate on the Louisville and Nashville alone a torce of 3244 men will be required. General Manager Harrahan, of the Lodi-ville and Nashville, expects to have the change on that road completed by 5 o'clock next Sanday alternoon, but no trains will be moved over the road till Monday morning, after thorough inspection by the Division Superintendents. In addition to the change of gauge nearly 8000 freight cars, 250 passenger coaches, 40 sleepers and 257 engines will be changed.

Wholesale merchants were this week notified that after Thursday no goods would be received for suipment to local points, as all freight business, except through cars, would be tem-porarily suspended until the 1st, pending the change of gauge of the various roads entering the city.

Of a consequence the wholesale men have been kept very busy the past few days getting off goods to fill pressing orders. The effect on the retail business will not be perceptible, ample provision having been made for the temporary suspension of transportation. The great change will be made without effecting a ripple on the city's business.

Extending the Little R ck. It is reported that in view of the Ba'd Knob Branch of the Iron Moun-tain being built to Memphis, Receiver Dow is arranging to extend the Mem phis road on from Little Rock to Hot Springs, and thence to Texas as soon as possible. It may be that the Louis-ville and Nashville has made an arrangement to this effect with his road, although there is no definite information on the subject

"Diamond Joe's" Sperations. It is rumored that "Diamond Jos" Revnolds of the Hot Springs railroad proposes to extend that road before ong to the mining region near Hot Springs.

MS. GLADS' ONE'S REPLY To Sir Michael Hicks-Beach in the Commons.

LONDON, May 28 .- The House of Commons was crowded this evening Mr. Gladstone, replying to a question by Sir Michael Hicks-Beach, Conservative, said the government con-sidered it its duty, after the second reading of the House bill, not to ask the House to go into committee on the measure, but to adopt one of the methods which he (Glad-stone) described at the Liberal meeting yesterday. The government, he said, was inclined to allow the bill to lapse for the present session, and to advise the Queen to cause an early re-assembling of Parliament, at which the bill wou d be re-introduced. He was unable at that moment to speak more positively.

Liebig Co's Coca Beef Tonic

is a remarkable preparatice. It contains the nutritive elements of the muscular fibre, blood, bone and brain of carefully selected healthy bullocks dissolved in rare old sterry wine. To be precise, each tublespoonful contains the nutritive elements of one cunce of choice beef, one grain and a half of pure quinine, and two grains of Iron. It also embodies a concentrated extract of coca, a South American tonic, of which Sir Robert Christison, M. D., F. R. S., physician to her majesty the Queen, says: "The properties of this wonderful plant are the most remarkable of any knownlinthe medical world. From repeated personal trials I am convinced that its use is highly beneficial and tonic."

PROF. DUNCAN CAMPBELL, M. D., L. D., F. R. S., President Royal College of Physicians and Surgeons, Member General Council University of Edinburg, etc., says: "Liebig Co.'s Coca Beef Tonic has more than realized my expectations."

PROF. JOHN M. CARNOCHAN, M. D., Surgeon in Chief N. Y. State Hospital, Professor of Surgery N. Y. Medical College, ex-Health Officer Port of New York, etc., says: "My patients derive marked and decided benefit from the Liebig Co.'s Coca Beef Tonic."

"My practice is smong women; with wornout, run-down, debilitated, over-worked school-teachers, milliners, dress-makers, and other classes of soif-supporting women, and they all require a good tonic.
